SUBPART 5801.1 – PURPOSE, AUTHORITY, and ISSUANCE

5801.101 Purpose

The Defense Information Systems Agency (DISA) Acquisition Regulation Supplement (DARS) establishes uniform DISA policies implementing and supplementing the Federal Acquisition Regulation (FAR), the Defense FAR Supplement (DFARS), Title 10 of the United States Code and other statutory authority, and applicable Department of Defense (DoD) directives and instructions. The DARS is not a “stand alone” document and must be read in conjunction with the preceding guidance.

5801.104 Applicability

The DARS applies to all acquisitions processed or managed by DISA, except where expressly excluded. Policies/procedures of non-DISA mission partners are acceptable as long as they comply with applicable laws and regulations. For example: Requirements office generated documents (e.g., acquisition plans, justifications and approvals) need not be in the DISA format, contain DISA supplemental information, etc.

DARS acquisition and procurement process oversight policies are not applicable to external mission partners.

5801.105-3 Copies

Copies of the DARS and associated acquisition policies and procedures are available electronically via the DISA Acquisition Policy and Guidance web site: <https://www.ditco.disa.mil/Hq/AqInfo>

5801.108 FAR Conventions

(b) Delegations of certain common procurement authorities are identified throughout the DARS. All delegations of authority can be found in DARS Appendix A, Approval and Delegation Matrix. The DISA level of authority identified in the matrix is the lowest level of delegation.

5801.170 Peer Reviews

(a) DOD Peer Reviews.

(1)(i) *Preaward peer reviews for competitive procurements.* Per [Class Deviation 2021-O00107](#), Defense Pricing and Contracting (DPC) will conduct preaward peer reviews for competitive procurements with an estimated value of \$1 billion or more for all procurements under major defense acquisition programs for which the Under Secretary of Defense for Acquisition and Sustainment (USD(A&S)) is the milestone decision authority. Additionally, preaward peer reviews of competitive procurements will be conducted for procurements designated by USD(A&S) as requiring a peer review, regardless of value. DPC-led peer reviews may be requested for acquisitions valued below the \$1 billion threshold and will be conducted upon approval by the Director, Contract Policy. DoD policy for peer reviews was established by the memorandum “Peer Reviews of Contracts for Supplies and Services,” dated September 29, 2008, available at <https://www.acq.osd.mil/dpap/policy/policyvault/USA000820-08-DPAP.pdf>.

(ii) *Preaward peer reviews for noncompetitive procurements.* Per Class Deviation 2021-O0007, Preaward Peer Reviews will be conducted for DISA noncompetitive procurements valued at \$1 billion or more or for any other contract action designated by the USD(A&S) as requiring a peer review, regardless of value. DPC-led peer reviews may be requested for contract actions valued below the \$1 billion threshold and will be conducted upon approval by the Director, Price, Cost and Finance.

(iii) *Postaward peer reviews for acquisition of services valued at \$1 billion or more.* Per Class Deviation 2021-O0007, DPC will not conduct postaward peer reviews for acquisitions of services with a total estimated value greater than \$1 billion as required by DFARS 201.170(a)(1)(iii).

(b) Component (DISA) peer reviews (if a DPC Peer Review is not conducted).

(1) *Preaward peer reviews for competitive procurements valued at \$500 million or more and noncompetitive procurements valued at \$500 million or more but less than \$1 billion.* The DISA Contracting Peer Review/Independent Management Review Program establishes policy and procedures for conducting peer reviews of all solicitations with a total estimated contract value (including options) of \$500 million or more.

(2) *Preaward peer reviews for procurements valued below \$500 million.* CoCOs are encouraged to request inter-DITCO and intra-DITCO pre-solicitation peer reviews below \$500M. Inter-DITCO peer reviews will be managed by PS22. Intra-DITCO peer reviews will be managed by the respective CoCO and results will be provided to PS22 (for tracking the conduct of the review and trends).

(3) *Postaward peer reviews of all contracts for services valued at less than \$1 billion.*

(S-90) *Independent management reviews for contracts for services valued at \$500 million or more.* The DISA Contracting Peer Review/Independent Management Review Program establishes policy and procedures for conducting independent management reviews of all contracts for services with a total estimated contract value (including options) of \$500 million or more in accordance with section 808 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181).

(1) *Objective.* The objective of the DISA Contracting Peer Review/Independent Management Review Program is to (1) ensure that contracting officer across the Procurement Services Directorate (PSD) are implementing law, policy and regulations in a consistent and accurate manner; (2) improve the quality of acquisition and contracting processes across DISA; and (3) share best practices and lessons learned. The findings and recommendations of the peer reviews/independent management reviews are advisory in nature, providing supplemental information to the contracting officer regarding acquisition strategy, contract structure, format, content, and compliance. The procedures are established in accordance with [Class Deviation 2021-O0007 - Peer Reviews of Acquisitions for Supplies and Services](#) dated June 25, 2021.

(i) Pre-award Peer Reviews of solicitations shall be conducted for procurements (\$500M or above, but less than \$1B) prior to issuance of the solicitation (pre-solicitation).

(ii) Independent Management Reviews of contracts for services shall be conducted at the following decision points:

(A) Mid-point of the initial (base) performance period if in excess of three years; and

(B) Prior to exercising the first option period of performance and every other option period thereafter (e.g., OP1, OP3, OP5).

All peer review/independent management review documentation shall be marked as “Source Selection Information – see FAR 2.101 and 3.104”.

Table 1-1 Peer Review/Independent Management Review Thresholds

Procurement Type	Dollar Threshold*	Reviewer
Preaward Competitive	≥\$500M	DISA
Preaward Competitive under major defense acquisition programs when USD(A&S) is MDA	≥\$1B	DPC
Preaward Noncompetitive	≥\$1B	DPC
Preaward Noncompetitive	≥\$500M to \$1B	DISA
Independent management reviews for contracts for services	≥\$500M	DISA

*Note: See DARS 5801.170 for additional reviews that may be accomplished under these dollar thresholds.

(S-91) *Peer Review Timelines/Procurement Action Lead Times (PALT).* See DARS PGI.

(S-92) *Waivers.* If critical mission performance circumstances necessitate the request of a waiver, a “Request for Peer Review/Independent Management Review Waiver” can be found at <https://dod365.sharepoint-mil.us/sites/disa-PL2/Other/Forms/AllItems.aspx?id=%2Fsites%2Fdisa%2DPL2%2FOther%2FPeer%20Review%20Procedures%20and%20Documents&viewid=723ed1cb%2D84a7%2D4619%2D971b%2D209a81bfe782>.

SUBPART 5801.6 – CAREER DEVELOPMENT, CONTRACTING AUTHORITY, AND RESPONSIBILITIES

5801.602-2 Responsibilities

(d)(S-90) *Policy*. The contracting officer shall designate and manage Contracting Officer's Representatives (CORs) in accordance with the DoD and DISA COR Handbooks located at <https://www.ditco.disa.mil/hq/Cor>. The authority to designate CORs shall not be further delegated.

(S-91) The contracting officer must designate the COR in the Joint Appointment Module (JAM) as part of the award process, inserting DISA specific instructions as applicable. The JAM module is located at <https://piee.eb.mil/>. Within JAM, a COR may self-nominate or the contracting officer may appoint a COR.

(S-92) The mission partner may indicate on Enclosure 1, Requirements Checklist that a COR appointment is not necessary because it meets the exemption criteria in DFARS PGI 201.602-2(d)(v)(A) (1) and (2). The contracting officer shall review the requirement to confirm the criteria are met. The contracting officer may request additional information to support the exemption, as necessary. Filing Enclosure 1, Requirements Checklist in the contract file meets the requirement in DFARS PGI 201.602-2(d)(v)(A)(3) to document the file in writing.

(S-93) *Contracting Officer responsibilities*:

(1) Electronic Document Management System (EDMS) Tab 52 shall contain a copy of the approved designation letter from the JAM module.

(2) A *Technical Representative* (TR) is distinctly different from a COR. A TR is not authorized to perform contract administration functions and is generally located at a contractor's facility to provide program technical oversight. The program manager (see DARS Part 5807 for definition) appoints the TR. See DFARS 242.74 for TR procedures.

5801.602-3 Ratification of Unauthorized Commitments

(a) Definitions.

Ratifying Official. Ratifying Official as used here means the Senior Procurement Executive, (SPE) or the Head of the Contracting Activity (HCA), as specified in (b)(2) below.

(b)(2) The ratifying official for all DISA unauthorized commitments (UC) of any dollar value and non-DISA UCs valued at or above \$1M is the SPE. The ratifying official for all non-DISA UCs valued below \$1M is the HCA. Coordination of the ratification request shall flow from the individual that made the unauthorized commitment as follows: 1) Cognizant contracting officer to prepare the Determination and Findings portion of the Ratification Approval Form, 2) General Counsel for a legal opinion, 3) DITCO HCO for review and concurrence and 4) PS22 for review and processing. PS22 will log the complete package into the PS22 Ratification Log, assign a tracking number, review the package to provide any findings or comments to the contracting officer, and coordinate the final package for submission to the ratifying official for approval. The CoCO will notify the HCA when an UC has occurred, to include Center/Directorate/Division and D-Code, individual who committed the UC, dollar value, and the general facts of the UC. The HCA will notify the cognizant Center/Directorate SES(s).

(S-90) For all offices aligned under DISA, to include ADCON offices, the individual who made the UC serves as the Action Officer for the ratification request and prepares the package using the PSD Request for 'Approval of Unauthorized Commitment' form, to include documents specified to be provided to develop a complete record of the UC. If the individual who committed the UC is no longer available for any reason (e.g., left government service, retirement, on extend leave) then the next person in the individual's chain-of-command within the organization is responsible for requesting the ratification, completing the Approval of Unauthorized Commitment form, and providing all required information and evidence to the Contracting Officer. For external offices, the individual who made the UC serves as the Action Officer for the ratification request and prepares the package or an individual within the chain-of-command.

The Ratification Approval Form and further guidance regarding ratification of unauthorized commitments is located in the [DARS PGI 5801.602-3](#).

(S-91) Timelines for Processing Ratification Packages can be found in DARS PGI 5801.602-3(b)(2)(S-91)

(4) Policy compliance (PS22) reviews --

(i) Requests for Policy compliance review shall be sent via email to the “[DISA Ft Meade PLD Mailbox PL22 Policy Compliance Review](#)” group mailbox. The following standard subject line format shall be used: “[insert Office Code (i.e., PSX)], [insert “Pre-Solicitation”, “Pre-Award” or “Post-Award,” as appropriate] Policy Compliance Review Request, [insert solicitation, contract/modification, or order/modification number].” Urgent requests for review must also include “Expedite” in the subject line and shall be forwarded to the PS22 group mailbox by the CoCO. Pertinent information needed to assist the PS22 Policy compliance reviewers should be included in the body of the e-mail. For example, provide the EDMS folder ID number*, document identifier/description, indicate if a policy compliance review was accomplished at a previous stage of the procurement (and if so, the solicitation number), provide the estimated dollar value of the procurement, etc. See Table 1-5 for a list of required documents. Documents may be submitted as attachments to the email if not available in EDMS.

*Note: The EDMS folder identifier must be included.

(ii) In circumstances where the contracting officer finds it necessary to proceed with issuing a solicitation or awarding a contract action prior to obtaining a PS22 Policy compliance review as required by the DARS, the contracting officer shall obtain a written waiver from the CoCO. The waiver shall be retained in the official contract file. Prior to requesting a waiver, the Contracting Officer shall consider a targeted review of critical documents or portion of the contract file.

(iii) Each Policy review comment will be listed under one of the following categories: Observation, Finding, Recommendation, or Commendation. Below are the definitions of each category:

(A) Observation: Comments and input on issues identified by the PS22 Analyst that do not meet the definition of a Finding or do not warrant being documented as a Finding yet may need correction. Observations may be accompanied by an actionable Recommendation. Examples include process improvements, apparent oversights in supporting documentations or the contents of the contract file, administrative errors related to grammar, punctuation, style, etc.

(B) Finding: Specific actions that contradict statutory, regulatory, or policy requirements, causing the procurement to be deemed non-compliant with the FAR, DFARS, DARS, or DISA prescribed policy or procedure. Findings shall include a cited reference and the Finding shall be resolved prior to release of any related procurement documents. The compliance review issued by PS22 documenting the Finding and the documented disposition by the Contracting Officer shall be filed in the contract file.

(C) Recommendation: Tangible action proposed by the Analyst to rectify a Finding identified by the compliance review by either: (1) adjudicating the Finding in accordance with statute, regulation, or policy or (2) establishing internal procedures to mitigate the likelihood of reoccurring deficiencies if elimination of the Finding is not possible or practical.

(D) Commendation: Validated procedures, actions or examples with supportable documentation which can generally be accepted as superior to other alternatives, or “standards” over-and-above what is merely required.

(5) PS6 Reviews see [DARS PGI](#) 5801.9000(d)(5).

(6) Legal (GC) reviews ---

In addition, Legal may also express its business opinion/advice in support of its reviews beyond the base legal sufficiency determinations above, to include advice on legal and business risks relative to the best interests of the Agency. These opinions constitute advice for consideration of the DISA acquisition team in which the GC is a partner.

(ii) Legal review comments or a statement that the procurement document has been reviewed and found to be legally sufficient shall be placed in the contract file. The contracting officer is responsible for assuring that all legal comments are adjudicated.

The waiver shall be retained in the contract file. The CoCO shall request an emergency/or quick turn-around legal review prior to approving a waiver. Legal will not review solicitations and contract award actions that have been waived (i.e., after-the-fact reviews).

5801.9001 Procurement Management Reviews (PMR) and Special Interest Reviews

(a) Chief, Contract Operations Branch (PS22) will establish and maintain DISA’s Procurement Management Review (PMR) program, conduct Special Interest Reviews, and assist the Agency with other reviews as appropriate. PMRs assist the Head of the Contracting Activity (HCA) and the DISA Senior Procurement Executive, in evaluating DISA’s procurement processes, including the DISA Purchase Card Program. PMRs also assist the CoCO and the HCO to improve the operational efficiency and effectiveness of their contracting organizations. This is accomplished through the assessment of internal

management controls and acquisition policies and procedures. Additionally, the results of the PMRs are used to assess the Agency's ability to sustain external scrutiny such as DoD Inspector General (DoDIG) Audits, General Accountability Office (GAO) Audits, external PMRs, and other independent reviews.

(b)(i) PMRs are conducted at the four Defense Information Technology Contracting Organizations (DITCO):

- (1) DITCO-National Capital Region (NCR)
- (2) DITCO-Europe
- (3) DITCO-Pacific
- (4) DITCO-Scott

(ii) Contract Management Reviews (CMR) are conducted at two external organizations:

- (1) WHCA (White House Communications Agency)
- (2) CMCA (Communications Management and Control Activity)

(c) PMRs and CMRs will be conducted IAW the PSD PMR Standard Operating Procedure. The HCA is the final decision authority for PMR/CMR observations, findings and recommendations.

(d) Special Interest Reviews are conducted at the request of the HCA or the SPE. These reviews assess specific aspects of the procurement process and/or operations, as requested.

SUBPART 5806.3 – OTHER THAN FULL AND OPEN COMPETITION

5806.302-1 Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements

(d) Limitations.

(S-90) The HCA has waived the requirement to issue a Request for Information (RFI) or Sources Sought Notice (SSN) as a market research method (see DARS 5810.001 (S-92)) for:

- (1) Procurement actions to increase the ceiling amount of a contract/order
- (2) Bridge contract actions
- (3) Procurement actions as a result of a protest

(S-91) Use of a SS notice meets the requirement at FAR 5.201 for making notices of proposed contract actions, when the SS notice also includes the information required at FAR 5.207(c)(15) and (16) and FAR 6.302-1(d)(2). Use of an RFI does not meet the requirements at FAR 5.207(c)(15), (16) and FAR 6.302-1(d)(2); a separate notice of proposed contract action is required if a sole source procurement will result from the requirement described in an RFI.

5806.302-4 International agreement

(c) Limitations. The waiver of the justifications and approvals made effective by the HCA document described in DFARS 206.302-4(c) shall only suffice in cases when the host country or NATO requests and documents in the agreement the specific company and supplies / services to be procured.

5806.302-7 Public Interest

(c)(1) Follow the format at FAR 1.7 to prepare the D&F.

Required coordination: CoCO and HCO, PACA/ACA, PS2, legal counsel, HCA, and SPE. Provide the PACA with a copy of the approved D&F.

- (3) A justification is required to support the determination.

5806.303-1 Requirements

(c) The Technical and Requirement certification may be accomplished by the same certifying official on the OTFAOC Justification.

(S-90) The requirements office, in close coordination with the contracting officer, shall develop the Justification for OTFAOC using the required format located in [DARS PGI](#) 5806.303-1(S-90). Templates are updated periodically, therefore a new template must be used for each new J&A.

(S-91) The approval level shall be determined by the estimated total value of the class. For each acquisition covered by a Class J&A, the contract file must include a copy of the Class J&A with signature page, or a statement referring to its location. Only one statutory and associated regulatory authority is permissible to support a Class J&A.

(S-92) Class J&As: Legal Counsel review/coordination is required on all Justifications for OTFAOC over \$750K prior to approval by the approving official. The contracting officer can request legal review for justifications at \$750K or below. Procedures for signatures and approvals are located at [DARS PGI](#) 5806.303-1(S-90)(b).

Legal reviews will be conducted within four (4) business days. PACA/ACA reviews will be conducted within three (3) business days.

(S-93) An amendment to an approved J&A is required if, prior to award of the contract, the approved J&A contents change in any of the following areas:

- (1) The dollar value changes (increases) prior to award but remains within the original approving official approval level;
- (2) The dollar value of the prospective contract results in a change of the approving official;
- (3) The competitive strategy; or,
- (4) Requirements that affect the basis for the justification.

If paragraph (1) applies, a new signature page will be routed to the approving official. If paragraphs (2), (3) or (4) apply, a new signature page will be routed in accordance with (S-92).

(S-94) A modification to an approved J&A is required if, after the award of the contract, the value of the contract will increase above the value of the J&A.

The approving official for a modification to an approved J&A shall be based on the value of the modification alone, except if processed within six (6) months of an awarded contract action, which shall then be the cumulative dollar amount.

If the cumulative value requires a higher approving official's signature, a new signature page will be routed through the initial approving official to the new approving official.

(S-95) Determining contract value.

Proposed out-of-scope contract modifications and new task/delivery orders require a new OTFAOC J&A. The estimated value of the proposed out-of-scope contract modification or new task/delivery order J&A shall be based on the value of the modification or new task/delivery order requirement alone, and not a cumulative contract value, except if processed within six (6) months of an awarded contract action, which shall then be the cumulative dollar amount.

If the cumulative value requires a higher approving official's signature, a new signature page will be routed through the initial approving official to the new approving official.

5806.303-90 Amendment/Modification Justification Format

(a) The J&A shall clearly reflect the amendment/modification changes in bold text and separate from the original approved J&A text.

(b) The title of the Justification should read: If prior to award "Amendment Justification"; if after award "Modification Justification".

(c) The Justification posting requirements remain unchanged from the original Justification posting requirements.

SUBPART 5807.1 – ACQUISITION PLANS

5807.101 Definitions

Component Acquisition Executive (CAE). The CAE has oversight and review authority for all acquisition matters. The CAE has the authority and is accountable for all acquisition functions and activities in the Agency. (Source: DISAI 610-225-2)

Procurement Services Executive (PSE). Serves as the DISA HCA.

DISA Mission Partner. Internal DISA program office (i.e., requirements office).

DISA Program/Project. A DISA funded logical grouping of requirements designed to provide a new, improved, or continuing capability in response to a validated operational capability.

High-Risk Contracts. Cost reimbursement (CR) contracts, time-and-materials (T&M) contracts, and labor-hour (LH) contracts. The definition of high-risk does not include direct 8(a) contracts equal to or below the competitive threshold in FAR 19.805-1(a)(2).

High-Risk Contract Line Item Numbers (CLIN). CR, T&M, and LH CLINs. When a combination of CLIN types are used (sometimes referred to as a “hybrid”), the contract is considered high-risk if the high-risk CLINs constitute 50% or more of the total estimated cost.

Integrated Product (or Process) Team (IPT). A cross-functional team formed for the specific purpose of delivering a capability for an external or internal mission partner.

Independent Government Cost Estimate (IGCE). The IGCE is a required evaluation tool in DISA source selections. As such its integrity is critical, and the PMO shall be responsible for ensuring that appropriate technical and cost and price analysts are involved in its development.

Non-DISA Mission Partner. An external program office (i.e., requirements office), such as other DoD Components and Federal Agencies.

Program Executive Officer (PEO). Appointed by the CAE to manage portfolios of programs, projects, initiatives, and services. (Source: DISAI 610-225-2)

Program Manager (PM) or Program Management Office (PMO). The designated person (i.e., requirements official) or office responsible for the planning function of all phases of the acquisition cycle, and develops and maintains written plans, as required by statute, policy or regulation.

Decision Authority (DA). Official designated by the CAE to manage portfolios of programs, projects, and services. The senior official responsible for ensuring that a proposed services acquisition is consistent with DoD’s policies, procedures, and best practices guidelines for the acquisition of services. The DA is responsible to identify, assess, validate, and approve services acquisition requirements within delegated thresholds. The approval of a requirement allows prioritization of mission requirements to best support mission needs within available funding limits.

5807.103 Agency-Head Responsibilities

(S-90) A written plan (combined AS/AP, standard, or streamlined) shall also be prepared for high risk contracts/CLINs as defined in subpart 7.101 (See Table 7-1 for thresholds and approval authority). All APs shall be reviewed by and concurred with by the Office of Small Business Programs (OSBP) prior to sending to the Approver.

(d) IAW Special Contract Requirement H1 OCCI (See [DARS PGI](#) Attachment 1), if a prime or subcontractor breaches any of the OCCI restrictions, does not disclose, and/or misrepresents any relevant facts required to be disclosed concerning the contract, the contracting officer may terminate the contract, disqualify the contractor from subsequent related contractual efforts, and pursue any remedies as may be permitted by the contract or law.

5809.508 Examples

(S-90) Contractor participation in more than one of the following areas may give rise to an unfair competitive advantage resulting from access to advance acquisition planning, source selection sensitive or proprietary information. Furthermore, contractor participation in more than one area may give rise to a real or apparent loss of contractor impartiality and objectivity where its advisory or planning assistance in one area potentially affects its present or future participation in another area. The following is not an inclusive list, but represents some potential circumstances where OCCIs may occur:

Providing systems engineering, technical direction, or product support. Services or end items required to meet the mission requirements of DISA's activities and programs. This includes, for example: concept exploration and development; system design/engineering; system development and integration; COTS procurement and integration; internal development testing; deployment; installation; operations; and maintenance. When a contractor provides such services but does not have contractual responsibility for related development, integration, assembly or production for that system, that contractor is prohibited from competing either as a prime or subcontractor for a contract to supply that system.

(1) *Preparing specifications and work statements.* With certain exceptions, a contractor who assists with, prepares, and/or furnishes contract specifications for a government requirement may not compete for the subsequent award because this may give that contractor an unfair competitive advantage. This includes, for example: requirements analysis, acquisition support, budget planning and management, business process reengineering, program planning and execution support, and independent technical management support.

(2) *Providing evaluation services.* Contractors cannot evaluate their own proposals, products and services, or those of their market competitors whose development or marketing contractor is or has been substantially involved because the contractor is placed in a position whereby their judgment may be biased. For example, it would be inappropriate for a contractor to assist in the evaluation of proposals if it will financially benefit from the selection of one company over another. Further, increased attention should be given to situations where a contractor is in a position to assess or evaluate a competitor where detrimental findings could serve, directly or indirectly, the interest of the advising contractor. Further, the contractor could have inappropriate access to competitors privileged and confidential business information. Therefore, all parties involved must ensure proper safeguards are taken and integrity of the process to protect the Government's best interest.

(3) *Obtaining access to proprietary information.* When a contractor requires proprietary information from others to perform on a Government contract and can use the leverage of the contract to obtain it, the contractor may gain an unfair competitive advantage unless restrictions are imposed. These restrictions protect the information and require companies to provide it when appropriate and necessary for contract performance. For example, services which, by their very nature, give

the contractor or subcontractor access to extensive data about the contracts and business operations of competitor contractors. Such an advantage could be perceived as being unfair by a competing contractor who is not given similar access to the same relevant information.

PART 5810 - MARKET RESEARCH

Sec.
5810.001 Policy
Revised: April 2024

5810.002 Procedures

This page intentionally left blank.

5810.001 Policy

(a)(2)(ii) The program office or the requiring activity must address whether the acquisition can or cannot be set-aside for small businesses in the market research report.

(b) All Sources Sought Notices (SSN) and Requests for Information (RFI) for acquisitions with an estimated value exceeding \$5M, with the exception of the Sole Source Notice of Intent, shall be forwarded to [the DISA Office of Small Business Programs \(OSBP\)](#) for review to ensure, for example, potential sources are not requested to submit more than the minimum information necessary. OSBP has 5 business days to complete the review.

(S-90) The contracting officer will thoroughly review and validate as appropriate the market research report.

(1) The program office or requiring activity and the contracting officer must fully document and detail market research with respect to small business participation. Market research must document to what extent the small business community, as a whole, has or does not have the ability to support the requirement. If the resulting acquisition strategy does not include a small business set-aside, market research documentation should explicitly explain why a set-aside is not appropriate. The contracting officer will certify by signature on the market research report whether or not the results support or do not support setting aside the acquisition.

(2) When market research indicates that the small business community, as a whole, does not possess the required capability or capacity to perform as a prime contractor, consideration must be given to small business subcontracting. The market research report should address subcontracting opportunities for small businesses.

(S-91) The contracting officer shall notify the OSBP via e-mail of all industry days, including date, time and location of event, in sufficient time for OSBP participation using the title "Industry Day Notification" to the OSBP email: disa.meade.osbp.mbx.ditco-small-business-office@mail.mil.

5810.002 Procedures

(b)(2)(ix) The contracting officer shall document and attach the results of the SBA Dynamic Small Business Search tool at http://dsbs.sba.gov/dsbs/search/dsp_dsbs.cfm to the Market Research Report and forward with the DD Form 2579 to OSBP for review. Assistance is available from the OSBP when seeking potential sources.

(x) Post procurement notices to Contract Opportunities including SSNs or RFIs. (See DARS 5819.202 (S-93)(2)(3)).

(A) A RFI is used to develop requirements and make decisions regarding acquisition strategies when limited or no acquisition history is available and when industry input is required. When an RFI is planned, allow for the following:

(1) Posted on Contract Opportunities for at least 21 business days to ensure maximum participation by small business concerns.

(2) Use the approved DISA RFI template at [DARS PGI 5810.001\(b\)](#).

(B) A SSN is used when there is a known requirement with a previous procurement history, or a well-defined new requirement. When a SSN is planned, allow for the following:

(1) Posted on Contract Opportunities for a minimum of 14 calendar days to ensure maximum feedback.

(2) Use the approved DISA SSN template at [DARS PGI 5810.001\(b\)](#).

(S-90) Except for the issuance of a SSN or RFI, market research is primarily the responsibility of the program office or the requiring activity. Market research documentation must be complete, unbiased, and supported by facts, not more than 12 months old (for award of contracts other than task or delivery orders) and provided as part of the requirements package. Include the market research report in the contract file.

(S-91) Market Research Report (MRR) templates are located in [DARS PGI 5810.002\(S-91\)](#).

5815.304 Evaluation Factors and Significant Sub Factors

(d)(S-90) Small Business Participation Evaluation:

In acquisitions that require the use of FAR Clause 52.219-9, Small Business Subcontracting Plan, other than those based on the lowest price technically acceptable source selection process, the extent of participation of small business, including those in socioeconomic categories, shall be addressed through the submission of a Small Business Participation Plan. The contracting officer shall coordinate with the OSBP before issuing a solicitation when the evaluation assesses the extent of small business participation. The DoD Source Selection Procedures provides additional information regarding the evaluation of small business participation and it may be accessed at: <https://www.acq.osd.mil/dpap/policy/policyvault/USA000740-22-DPC.pdf>

Small Business Participation Plan Post Award Responsibilities:

The Small Business Participation Plan shall be incorporated into the contract (as an attachment). Twice a year (every six months), the contractor shall report to the Contracting Officer's Representative and the Contracting Officer with a copy to the OSBP information concerning their performance under the Plan. This reporting requirement is separate from the eSRS Subcontracting Plan report submission requirements. The contracting officer will determine reporting period dates that are consistent with the contract award date.

5815.307 Proposal Revisions

(S-90) Final proposal revision letters shall be reviewed by legal counsel for competitive actions in accordance with the thresholds at DARS 5801.9000.

5815.371-5 Waiver

(b)Prior to awarding to the only offeror received when utilizing the competitive procedures, the contracting officer shall document a recommendation that resoliciting the procurement for an additional period of at least 30 days is not in the best interest of the Government (sample determination and findings/waiver is at <https://disa.deps.mil/org/PL2/Pages/DITCOREfs.aspx> DARS PGI 5815.371-5(b)). The HCA delegates the waiver authority to the appropriate DITCO Chief of the Contracting Office (CoCO).

SUBPART 5815.4 – CONTRACT PRICING

5815.403-3 Requiring Data Other Than Certified Cost or Pricing Data

(S-90) Refusal to Provide Data Other than Certified Cost and Pricing Data. Contracting Officers are required to coordinate with the DITCO-Scott, Cost and Pricing Branch (PS842) if a contractor refuses to provide Data Other than Certified Cost and Pricing Data. Refusals to provide this data is considered a “Denial of Requests for Data Other than Certified Cost and Pricing Data” and is reportable to DPC in accordance with DFARS PGI 215.403-3(6) Reporting requirements. The Cost and Pricing Branch will consolidate any denials that are not resolved through the elevation process at DFARS PGI 215.404-1(a)(i)(A) and report those actions quarterly to the PS21, Contract Policy Branch. As required, the Cost and Pricing Branch will coordinate on any required determination by the HCA IAW FAR 15.403-3(a)(4).

5815.404-1 Proposal Analysis Techniques

(S-90) *Policy.*

(1) Independent Government Cost Estimates (IGCE) are part of the required documentation for a complete requirements package for procurement actions expected to meet or exceed the Simplified Acquisition Threshold (SAT). An IGCE is also required for Economy Act Determination and Findings requests above \$2,500. The DISA IGCE Deskbook located at <https://www.ditco.disa.mil/hq/Deskbooks> contains procedures/guidance for developing IGCEs.

(2) IGCEs must contain a written narrative to demonstrate how the estimates were developed. Assistance with developing IGCEs, including incorporation of current cost and pricing information should be requested, as needed, from PS842.

(3) The use of “fully burdened” labor (hour) rates is recommended. Rates must be recent and relevant to the labor categories contemplated. PS842 can provide advice regarding sources of fully loaded labor rates, as well as their applicability and limitations for use in developing the IGCE.

(4) Resource Managers shall coordinate on IGCEs prior to submission of the requirements package.

(5) Contracting officers shall fully document in the PNM variances in the total evaluated cost/price and the IGCE. Significant deviations may be cause for formal discussions or RFP/RFQ amendment or cancellation. Total evaluated cost/price exceeding the IGCE should be discussed with the PMO to determine if additional funds may be secured.

(S-91) Cost and Price Analysis. Contracting officers shall initiate action to obtain cost and price analyses in accordance with the following procedures.

The contracting officer, exercising sole responsibility for the final pricing decision shall, in accordance with FAR 15.404-1, coordinate with, request, and evaluate the advice of the Cost/Price (C/P) Analyst (PS842) and/or Tariff Specialists (DITCO-Scott, PS82, Telecommunications Contract Division). Contracting officers shall obtain cost and pricing assistance for contract awards, orders or modifications of \$10 million or more. Contracting officers may request cost and pricing assistance, including a cost/price analysis and review of all solicitation documents (including the PWS, RFP, etc.) before solicitation or issuing a modification with a contract value in excess of the threshold for obtaining certified cost or pricing data (FAR 15.403-4(a)(1)), to determine price reasonableness. A list of services offered by the Cost/Price Branch can be found in the “Cost and Pricing Request Form” located at [DARS PGI 5815.404-1\(S-91\)](#).

The following exceptions apply:

(i) Orders priced in accordance with prices/rates established in base contracts/agreements. Modifications priced in accordance with prices/rates established within the base contract/order/agreement.

(ii) Modifications for funding actions

(iii) Modifications to exercise priced options; or

(iv) Any other contract or order award, or modification meeting the thresholds above where the Cost and Pricing Branch Chief and at least one level above the contracting officer waive in advance the requirement to obtain cost or pricing assistance. This agreement must be documented in writing in the official contract file.

(2) PS82 Tariff Specialist assistance related to tariff interpretation, tariff rate establishment/update and other tariff issues shall be requested as required.

(3) PS842 or PS82 Tariff Specialist, with the concurrence of the contracting officer, shall be responsible for:

(i) Obtaining cost or pricing data or information other than cost or pricing data and auditing contractor's records.

(ii) Performing contract audit follow-up reporting tasks.

(iii) Conducting cost or price analyses and tariff reviews in accordance with FAR 15.404-1, as appropriate. Cost analyses shall incorporate audit findings, technical analysis and tariff review results, and all relevant cost driver information.

(iv) Consolidating cost or pricing data, information other than cost or pricing data, audit results, tariff reviews and other pertinent information; and developing pre-negotiation objectives.

(v) Participating in negotiations with contractors which require the use of information, computations, or data developed during the cost or price analysis.

(vi) Reviewing all solicitations for actions which require PS842 or PS82 Tariff Specialists in accordance with (S-92) (1) prior to issuance for competitive or noncompetitive services and supplies to ensure adequate cost or pricing data and tariff provisions are included and that detailed evaluation criteria are developed and tailored for each acquisition.

(vii) Assisting contracting officers in documenting the contract files by providing detailed cost/price analysis memoranda, supporting schedules, automated spreadsheets, discussion items, pre- and post-negotiation memorandums input, DD Forms 1547, Tariff Change Notices, Tariff Contract File Conflict Notices, and other items, as required.

(viii) Participating in conferences, briefings, debriefings, and other meetings where pricing and/or tariff support is required.

(S-92) *Request Cost and Price Analysis Support.* To request cost/price analysis support, the contracting officer shall submit a completed "Cost and Pricing Request Form" located at [DARS PGI 5815.404-1\(S-91\)](#) to the Cost and Pricing Branch Chief via [DITCO-Scott Cost and Pricing Branch Mailbox](#), containing details related to the type of support requested. RFP reviews must be requested early in the acquisition stage so that a detailed review may be accomplished prior to issuing the RFP. Acquisition plans and timelines must recognize the need for effective pricing/tariff reviews and analysis and must contain reasonable periods for conducting these tasks. C/P analyst pre-solicitation reviews shall be requested concurrent with policy and legal reviews.

5815.406-1 Prenegotiation Objectives

(b) Prenegotiation objectives are established and documented within the Cost/Price Report and/or Evaluation Notices (EN). ENs shall be developed prior to entering negotiations with the offeror, and issued to the offeror during negotiations, to assist the Contracting Officer in making a fair and reasonable price determination and to resolve any weaknesses or deficiencies in the proposal. Cost and pricing analysis assistance for actions less than \$10M is encouraged in order to ensure the pertinent issues to be negotiated, cost objectives, and a profit or fee objective is clearly documented in the Cost/Pricing Report.

5815.406-3 Documenting the Negotiation

The Standard Operating Procedure for Obtaining Access to the Contract Business Analysis Repository (CBAR) is located in DARS PGI 5815.406-3(S-90).

(S-90) *Price Negotiation Memorandum.* A Price Negotiation Memorandum (PNM) shall be prepared for contracting actions as described below and included in the official contract file.

A PNM is not required for any actions at or below the micro-purchase threshold, nor is a PNM required for orders under single award indefinite delivery contracts, when established priced line items are being ordered and the established pricing was deemed fair and reasonable in the base contract. The PNM fulfills the documentation requirements in FAR 15.406-3 and provides the determination of fair and reasonable pricing. The PNM templates are located in <https://disa.deps.mil/org/PL2/Pages/DITCOREfs.aspx?RootFolder=%2Forg%2FPL2%2FOther%2FPROCEDURES%20GUIDES%20AND%20INSTRUCTIONS%20%28PGI%29&FolderCTID=0x012000175D246D4A108E42B091C3F17BE4BDFE&View=%7B998EB6D7%2DDD02%2D4224%2D9626%2D13F9934F7F4C%7D> DARS PGI 5815.406-3(S-90). See DARS 5813.106-3 (S-90) for PNM requirements for the I/Q/O process or the North Atlantic Treaty Organization (NATO) Allied Long Lines Agency (ALLA)/National Allied Long Lines Agency (NALLA) circuit demand process under the threshold for certain commercial items identified at FAR 13.500(a).

(S-91) *DITCO Cost/Price Analyst Involvement*

(1) PNMs for actions valued over \$10M shall be routed electronically to the Cost and Pricing Branch for review/coordination prior to approval (See [Contract Document Approval Signature Routing Procedures](#)). Routing to the Cost and Pricing Branch or assigned Contract Price/Cost Analyst is not required when pricing is based on prices/rates are established in base contracts/agreements, when prices are set by law or regulation, or a fair and reasonable price determination can be made by the contracting officer by comparing prices or rates against an existing or previous Government contract where prices are recent and based on an adequately supported fair and reasonable price determination.

(2) ENs for actions valued over \$10M, shall be prepared in collaboration with a DITCO Cost/Price Analyst. The Cost/Price Analyst shall assist the contracting officer in evaluation of the pricing proposal and aid in the development of the pre-

negotiation objectives issued as ENs; the Contract Price/Cost Analyst shall also support negotiations and review of the PNM, prior to approval, as requested by the contracting officer.

(3) In all instances where the Cost and Pricing Branch has provided assistance in development of the PNM—including but not limited to, the evaluation of cost/price proposals and calculation of the Government negotiation position, a copy of the signed/approved PNM shall be provided to the Cost and Pricing Branch Chief via [DITCO Scott - Cost and Pricing Branch Mailbox](#). In situations where the recommendations provided by the C/P Branch and the negotiation objectives are not achieved during negotiations, the contracting officer shall include an explanation in the PNM. The explanation shall contain detailed information on recommendations not achieved and the alternative rationale utilized in the contractor officer's determination of fair and reasonable pricing.

(S-92) *PNM Approval Authority*. The approval authority for all PNMs and negotiation objectives is the contracting officer.

SUBPART 5827.90 – TRADEMARK RIGHTS UNDER GOVERNMENT CONTRACTS**5827.9000 Definitions**

Trademark is a word, phrase, symbol or design, or a combination that identifies your goods or services, distinguishes them from the goods or services of others, and indicates the source of your goods or services.

Service Mark is a word, phrase, symbol or design, or a combination of words, phrases, symbols or designs, that identifies and distinguishes the source of a service of one party from that of other parties.

5827.9001 Trademark Rights Under Government Contracts

The FAR and DFARS do not address trademark or service mark rights, nor is there an official DoD policy on ownership of trademarks or service marks first used in performance of a government contract in connection with goods or services delivered to the Government. Under federal trademark law, trademark rights generally reside with the entity that controls the nature and quality of the goods or services that are identified by the trademark.

However, in certain cases, it may be in the Government's best interest for DISA to own a trademark or service mark first created under a contract. For example, Government ownership may be desired for a mark that is to be used exclusively in connection with a government-controlled service that the contractor manages for DISA. DISA's Office of the General Counsel should be consulted to determine if there is a need to negotiate trademark ownership rights with the contractor and seek federal trademark protection on DISA's behalf by filing an application to register the trademark or service mark with the U.S. Patent and Trademark Office.

SUBPART 5832.7 – CONTRACT FUNDING

5832.703-2 Contracts Conditioned Upon Availability of Funds

(S-90) The standard DISA practice for awarding a contract action Subject to Availability of Funds (SAF) is based upon receipt of a SAF funding document from the mission partner. In the event an external mission partner cannot provide a SAF funding document, the Contracting Officer may accept a “Notice of Subject to Availability of Funds” memorandum in accordance with template provided at DARS PGI 5832.

5832.703-90 Solicitations Issued Without Funding

(a) A Request for Proposal (RFP) or Request for Quotation (RFQ) may be released, for DISA internal mission partners only, conditioned on the availability of funds, only when paragraphs (1) or (2) below apply.

(1) When the resulting contract is to be funded by Procurement or Research, Development, Test, and Evaluation Appropriations, and the program/requirement has been included in the President’s budget as submitted to Congress. In these instances, the program manager shall provide the contracting officer a written statement (coordinated with J8 (OCFO)) that these funds will be used for the proposed acquisition and although not presently available, a reasonable expectation exists that funding will be authorized and available upon enactment of the Authorization and/or Appropriations Acts.

(2) Contract Specialists/Contracting Officers shall require DISA Mission Partners to submit a commitment letter to release a solicitation prior to the funds being available.
